WHY CHOOSE AGS

AGS leverages its 30+ years experience to help guide our clients in making the most prudent business decisions related to each project need. We take the consultative approach, listening to our client's needs throughout the entire design - build process.

- > Creative designs
- > Ability to integrate theme props, water elements and landscaping for a more interactive and interesting playing experience
- > Each course is designed to fit the client's market and budget
- > We help maximize repeat play and return on investment
- > Our primary focus is fun for all guests of all ages
- > We design for road appeal and to stimulate instant decisions to play
- > We offer the widest spectrum of mini golf products & services in the industry
- > In-house construction crews
- > Global experience

OUTDOOR MINI GOLF & RENOVATIONS

ADVENTURE GOLF:

is all about "THE SHOW" and the theme drives the look of the course (think life-size cartoons, ships, dinosaurs). There is no limit to the creativity that can take shape in an Adventure Mini Golf course.

LANDSCAPE MINI GOLF:

While not as over the top, it is interactive, fun, and will work with limited budgets or smaller markets & venues.

RENOVATIONS:

AGS designers will evaluate your course with actionable ideas to help you with:

- > Golf hole playability and fun
- > Golf hole improvement ideas
- > Golf hole and hole cup drainage issues
- > Golf hole cup placement, type of cup and alternatives
- > Carpet condition and expectations
- > Golf hole edge system and alternatives
- > Obstacles and themed scenes
- > Water features and elements
- > Lighting
- > Landscape
- > 18th-hole options
- > Course visibility
- > Signage
- > Cash control ideas
- > Budget options
